

**Ashya International Minerals Private Limited** was setup in the year 2018. It is engaged in mining, excavation, production & processing of minerals like **Quartz** and **Feldspar**. It has been catering to the needs of domestic as well as international markets ever since. The company has its own Dis-integrator and Ball Mill plant spread across 10 acres near Kadthal area, Ranga Reddy District, Telangana. This plant enables us to convert minerals under a supervised environment, into mesh & grit form of various grades and quantities, as per client requirements. The company has approved licenses and long term lease agreements to undertake uninterrupted mining activities.
